KEY RISKS

Environmental Risks

- Know where the potentially high risk areas are around your player's environment (toilets, car parks, and bush) and ensure players are aware of the safety rules and potential risk associated with each high risk area/s.
- If the weather or environmental conditions change - If it is too hot, wet, cold or stormy seriously consider if the players are 1) capable of participating or 2) they will be safe doing so - if you believe it may not be safe you may choose to 1) change the way the activity is conducted to meet the new conditions or 2) cancel. Remember player safety should be paramount during the decision making process.
- If you are unable to cancel – ensure play is adjusted to meet the challenging conditions such as in hot weather:- shorten playing times, increase players fluid intake, ensure players are given ample time to cool down appropriately, allow alterations to players uniforms to cater for extreme temperatures and conditions, reschedule game time to avoid the worst of the weather conditions.

To Players Safety occurs when

- you don't follow the rules and/or implement common sense when carrying out your duties as Captain/Vice-Captain.
- you are not aware of the changes in the surrounding environment - most risk occurs due to complacency.
- you are not vigilant.
- you don't avoid the transmission of any blood, body fluid, or diseases. (Take extra care with towels, water bottles, sponges and all shared equipment).
- you allow injured players or players carrying a significant injury to play.
- you don't know how and what unacceptable behaviour is and unacceptable behaviour occurs it is not dealt with immediately or reported appropriately.
- players are not protected from harassment or bullying by any person on or off the field of play.
- you don't warm up and warm down players appropriately.
- your players don't understand their obligations to the safety of the sport, the club and other players.
